*“To create, one must first see
with the mind what others cannot yet imagine.”*

- Michelangelo (1475-1564)

Through the artist's way, a dream is awakened and a vision ignited.

A dream
AWAKENED

Dreamers, visionaries, counter-culturists – they are the artists, those who possess the rare faculty to perceive with the inner eye what remains unseen by the masses. Bravely, they engage in the almost mystical process of creation, their unique lens offering society fresh perspectives and urging us towards uncharted realms of imagination.

A world away from
THE ORDINARY

The Heart of Europe is nestled within The World, Dubai and is a magnificent man-made paradise, envisioned with bold insight, brought to life by grit. A project worth USD 6 billion designed and realized by the Kleindienst Group.

Home to opulent palaces and island villas, set among 20 luxury hotels and resorts. Minutes away from mainland Dubai, yet unforgettably unique.

At the sub-sea level, we nourish and expand the marine habitat by re-growing vibrant coral reefs. As the only real estate organization in the world undertaking coral rehabilitation, The Coral Nursery aims to cultivate over 100,000 corals, yearly, in our nursery. This effort supports the creation of a sustainable habitat that attracts and protects a diverse range of marine life.

Our commitment goes beyond restoration, we're proudly developing 28 breathtaking coral reef sites designed for both day and night diving. Our goal is to establish 303,000 square meters of thriving coral reefs and a resilient marine ecosystem.
