

THE  HAVEN III

This is a word that modern Greeks often use to describe doing something with soul, creativity, or love - when you put "something of yourself" into what you're doing, whatever it may be.

LIVING EXPRESSION

Introducing The Haven III – a residential community crafted for exclusivity, calm, and connection.

At The Haven III, architecture is more than structure—it's an expression of quiet confidence and thoughtful sophistication. Balanced in proportion and softened by nature, the building stands with a presence that is both recognisable and understated. In a neighbourhood often shaped by repetition, The Haven III offers a distinct, personal expression – natural, elegant and composed.

Trellised balconies, cascading greenery, and clean geometry create a calm architectural rhythm that balances openness with privacy. Set at a well-connected corner of Majan, and with access to serene wellness zones, curated amenities, and expansive parks, The Haven III offers a lifestyle that feels both elevated and exclusively personal – a home for those who value design that feels effortless but is deeply considered.

CRAFTED FOR THE FEW

With just 83 residences, The Haven III is designed with intention. Its limited release is a commitment to quality, focus, and a more personal living experience.

Fewer units mean more attention to every detail. More space to breathe. More room for privacy, peace, and natural connection.

This is a home for those who choose with care—individuals who value *craftsmanship over quantity*, and *presence over prominence*.

At The Haven III, selectivity is not an exclusion. It's an elevation.

OUR PROJECTS

CHAIRMAN'S MESSAGE

Under the visionary leadership of H.H. Sheikh Mohammed Bin Rashid Al Maktoum, Dubai is experiencing unparalleled growth and prosperity. The city's safety, security, and widespread access to luxury and convenience has led to an increasing number of families calling Dubai home. In order to meet this demand, we proudly bring to you, The Haven III.

Located within one of Majan's most desirable plots, The Haven III has been designed with the same clarity, balance, and commitment to quality that defines our approach. From its signature architecture and nature-integrated façade to its limited number of residences, every aspect reflects a more considered way of living—one where design supports well-being, and presence is expressed through refinement, not scale.

At Meraki, we believe that a home should reflect more than design - it should reflect the values of those who choose it. With The Haven III, we continue our commitment to thoughtful development, refined living, and a standard of delivery shaped by care and clarity. We look forward to bringing this vision to life and welcoming a new community of residents who share our belief in living with intention.

Warm regards,
Chairman
